☎ 9101382810

PROFESSIONAL SUMMARY

A skilled Computer Science professional with a Master of Computer Applications (MCA) and extensive hands-on experience in full-stack development. Specializing in designing, developing, and maintaining scalable web applications, RESTful APIs, and cloud-based solutions. Adept at solving complex technical challenges, optimizing system performance, and driving innovation in software development. Proficient in modern frameworks, cloud deployment strategies, and advanced database management, ensuring robust and efficient digital solutions.

WORK EXPERIENCE

Indigi Consulting and Solutions Pvt. Ltd. | Guwahati

Full-Stack Developer | Feb 2024 – Present

- Developing full-stack applications and enterprise projects, handling both frontend and backend development.
- Designing and implementing RESTful APIs using Laravel to enable smooth system integration and data exchange, specifically creating APIs for Flutter and Android applications to facilitate seamless mobile connectivity.
- Developing Admin Panels, Dashboards, and CMS-based websites with report generation, user management, and full-featured functionalities, enabling clients to manage content and operations efficiently without technical assistance.

Projects

- **GMDWSB (Guwahati Metropolitan Drinking Water & Sewerage Board)** – Managed and improved the **Jal Board application**, implementing critical features such as:
 - **Integrated Razorpay Payment Gateway** for seamless and secure online transactions.
 - **Redesigned the UI/UX** for better accessibility, user experience, and performance optimization.
 - **Developed custom reports** to provide insights into user activities, payment statuses, and service usage.

Web.com (India) Pvt. Ltd. Guwahati, Assam

Programmer | Full-Stack Developer | Nov 2021 – Jan 2024

Projects

- **Assam Police Seva Setu** – Designed and developed an interactive web portal using Laravel, Livewire, and JavaScript, allowing citizens to file complaints, track case statuses, and interact with police services digitally. The system was audited and passed government security and compliance checks.
- **Fertilizer Tracking System** – Built a real-time tracking system with Laravel, Livewire, and GIS-based analytics to monitor fertilizer distribution. Implemented automated reporting and role-based access control, ensuring efficiency and accountability.

- **Pragya Survey App** – Developed a backend infrastructure with Laravel and PostgreSQL, supporting field survey data collection and synchronization. Used Livewire and jQuery for dynamic form handling, improving data accuracy and efficiency.
- **HRMIS for Assam Petro Chemicals Ltd** – Created a secure and scalable HRMIS with Laravel, JavaScript, and PHPUnit for testing. Features include payroll processing, leave tracking, and performance evaluation, enhancing workforce management. Successfully audited and passed internal security reviews.
- **Health Care Laboratory System** – Built a cloud-based laboratory management system with Laravel, Livewire, and Alpine.js, allowing seamless patient record tracking, automated report generation, and test management. Ensured system security through penetration testing and compliance audits.
- **Mulberry Yarn Management** – Implemented an inventory and supply chain management system using Laravel, jQuery, and AJAX, optimizing production and distribution processes.
- **Content Management Systems (CMS)** – Designed custom CMS-based platforms using Laravel, Livewire, and JavaScript, enabling organizations to update and manage digital content effortlessly.

Internship

Rashtriya Uchattar Sikhsha Abhiyan | Guwahati | 02/2021 - 07/2021

- **Human Capital Resource Management App:** Developed a React Native and Laravel-based mobile application for managing employee onboarding, attendance, and task assignments efficiently.
- **Attendance Tracker:** Designed an automated attendance monitoring system with real-time synchronization, reducing manual work in tracking student and employee attendance.
- **Administrative Website:** Created a centralized portal for internal communication, document sharing, and resource management, improving overall administrative efficiency.

EDUCATION

Master of Computer Application (MCA), Cotton University, Guwahati | 08/2018 - 07/2021

Experience & Skills

Project Management & Cloud Computing

- **Developed and deployed** full-stack applications and enterprise-level projects, efficiently handling both frontend and backend development.
 - **Designed and implemented RESTful APIs** using Laravel to enable seamless system integration and **connect Flutter & Android applications**, ensuring smooth mobile interoperability.
 - **Built Admin Panels, Dashboards, and CMS-based platforms** with functionalities like **user management, report generation, and role-based access control**, allowing clients to manage operations effortlessly.
 - **Integrated cloud computing technologies (AWS, Firebase, Docker)** for **scalable, high-performance applications**, ensuring security, uptime, and real-time data synchronization.
 - **Deployed applications on AWS (EC2, S3, RDS)** with **auto-scaling and load balancing, Digital Ocean, Hostinger** optimizing system performance and cost efficiency.
 - **Implemented real-time updates** using **Firebase & WebSockets**, enhancing collaboration, live tracking, and data-driven decision-making in project management systems.
-

Technical Skills

- **Programming & Web Technologies:**
PHP, HTML, CSS, JavaScript (ES6+), TypeScript
- **Frontend Development:**
React.js, Next.js, Redux, Angular, Tailwind CSS, Bootstrap
- **Backend Development:**
Laravel, Node.js, Express.js, RESTful APIs, Microservices Architecture
- **Databases & Data Management:**
MySQL, PostgreSQL, MongoDB, Firebase
- **Full-Stack Development:**
 - **LAAMB Stack** (Linux, Apache, Angular, MySQL, Bootstrap)
 - **LAMP Stack** (Linux, Apache, MySQL, PHP)
 - **MERN Stack** (MongoDB, Express.js, React.js, Node.js)
- **Version Control & DevOps:**
Git, GitHub, GitLab, Docker, Kubernetes, CI/CD Pipelines
- **Cloud & Deployment:**
AWS, Firebase, Digital Ocean, Hostinger
- **Testing & Security:**
Jest, Cypress, PHPUnit, OWASP Security Standards, Penetration Testing

Thank You
